In case of accident or injury requiring medical attention, call 999 or 111.

The following information must be relayed by the person making the call:

- Emergency services required state whether Fire brigade required for recovery from a vehicle or just ambulance service. Give approx. location plus mobile telephone no. (vehicle details )
- Position of Casualty- Details of injured person — assessment of condition.
- Is resuscitation required, is bleeding taking place? (if known)
- Location of site - Area, Road/Street, nearest building or other identifying feature
- Nearest access point to site any special requirements such as on hilly farm land, 4x4 required to access casualty.
- Before signing off to await help, re-state mobile number as the Emergency services may need to phone back to site for an update
- Post a lookout in high-visibility clothing (and torch if necessary) to guide emergency services to site.
